

# RSM and the Northern Powerhouse

RSM is delighted to be a Northern Powerhouse partner and be part of a network to help bring the North together.

As leading advisers to middle market businesses across the North of England, we know that the region retains and generates exceptional talent, innovative entrepreneurs and a wealth of successful companies looking to grow. However, we are also all too aware of the lack of connectivity between key hubs across the North.

This is why we support the Northern Powerhouse agenda. It offers a vision for the future in which strong local government and intelligent infrastructure investment combine to create an environment that allows business and enterprise across the North to thrive locally, nationally and internationally. To succeed this will require real collaboration between newly devolved administrations and local and central government, as well as private businesses, investors, academia and civil society.

## Our focus on the North

As a Northern Powerhouse partner, RSM is proud to be uniquely positioned not only as an international firm, but with 10 offices covering the whole of the North of England.

## We're here to help your business grow

The Northern Powerhouse will bring together organisations across sectors, attracting more investment which will in turn lead to growth and wider socio-economic benefits across the North of England.

## How we can help you

- 40 service lines across audit, tax and consulting
- Dedicated sector specialist teams

## The Northern Powerhouse impact and who we can help

- Organisations from outside of the North looking to invest in the North
- Businesses in the North looking to expand nationally or internationally
- Public, private and third sector organisations enabling the Northern Powerhouse through policy deployment, new infrastructure or innovation
