OUR ENVIRONMENTAL POLICY

The need for action on the climate crisis is more pressing than ever. It’s the global issue affecting all our clients, people, and stakeholders. At RSM, we have a responsibility as a leading professional services firm to react.

The changes we will make to our business are about more than compliance with legal and regulatory requirements. We are committed to making appropriate and practical environmental change.

We therefore commit to achieve true net zero carbon by 2030. To achieve this we will:

• significantly reduce our carbon emissions;
• invest in technology so that clients and colleagues can interact virtually;
• measure and report our emissions and act on those findings;
• maximise the efficient use of materials and adopt the reduce, re-use and recycle approach;
• manage our business practices to reduce pollution;
• promote and educate climate awareness of our people leading to an environmentally-proactive workforce;
• offset residual emissions with accredited carbon offset projects that are transparent, relevant and will have a lasting impact; and
• monitor our ongoing performance and progress in achieving these aims at board level, and act on those findings.

Our National Leadership Team (NLT) and Board have adopted and endorse this statement. It is the firm’s framework for setting standards and procedures to form a comprehensive Environmental Management System for RSM UK.
